

ECB08M230

Control box for underfloor heating system

Technical Informations

ECB08M230 control box is the main element of the underfloor heating control system. It has a built-in box. It-in modules that controls the heat sources (by volt-free relay) and pump (230V AC). The control box allows to control 8 different zones. It is equipped with 230V AC voltage outputs for actuators. Pluggable terminal blocks provide quick and convenient wiring connections. The control box is designed to work with NC (normally-closed) type actuators.

Power supply	230V AC 50Hz
Max current	6(1) A
Outputs	Pump (230V) Boiler (NO/COM) Thermoelectric actuators (230V)
Dimensions [mm]	330 x 110 x 36

Connection description:
