ENGO

EBUTTON

ZigBee Smart Button, 3-function

- The compact size allows the device to be placed anywhere, on a wall or countertop, where you are most comfortable.
- Three functions in one button: The device offers single-click, double-click or hold button control.
- Create rules in the ENGO Smart app: Ideal for automating activities such as switching on/off appliances, lights, pumps, fans, roller shutters or gates.
- The application informs about the battery level.
- Very fast response to clicks.
- EGATE or EGATE-PRO internet gateway is required for the device to function.
